

Choosing Your LLM Model

What are LLMs?

- LLM (Large Language Model) powers the AI responses in your Storyline
- Different models offer varying quality, speed, and context capabilities
- Each model has its own strengths, weaknesses, and costs

Three Types of LLM Models

Free Models

- Completely free to use - no Mana or Arcane credits required
- Best for casual play or testing Storylines
- Lower context limits and may have basic capabilities

Standard Models

- Uses Mana credits as primary currency
- If Mana runs out, automatically switches to Arcane credits
- Moderate context limits and capabilities

Premium Models

- Uses Arcane credits only
- Highest quality responses and largest context windows
- Best for immersive, complex storylines
- Advanced capabilities and superior performance

Understanding Model Costs

- Input Tokens: Cost per 1 million tokens you send (your messages)
- Output Tokens: Cost per 1 million tokens the AI generates (AI responses)

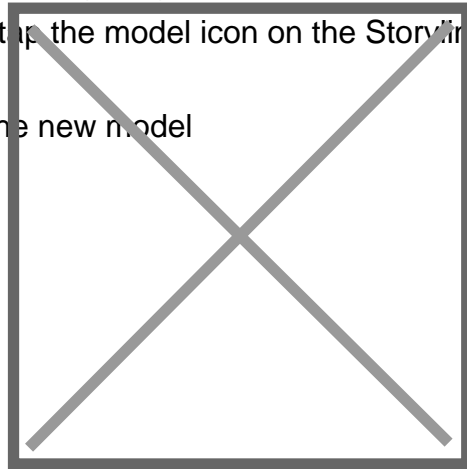

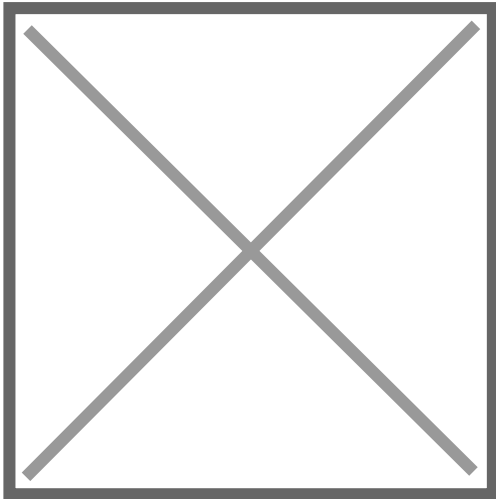

Example:

- Free Model: 0 Mana/Arcane for both input and output
- Standard Model: 28 Mana per 1M input, 42 Mana per 1M output
- Premium Model: Higher Arcane costs for premium quality

Key Features

Switch Models Anytime

- You can change LLM models mid-story without losing progress
- Access by tapping the Settings icon (??), then tap the model icon on the Storyline settings page
- Your conversation continues seamlessly with the new model

Context Limit

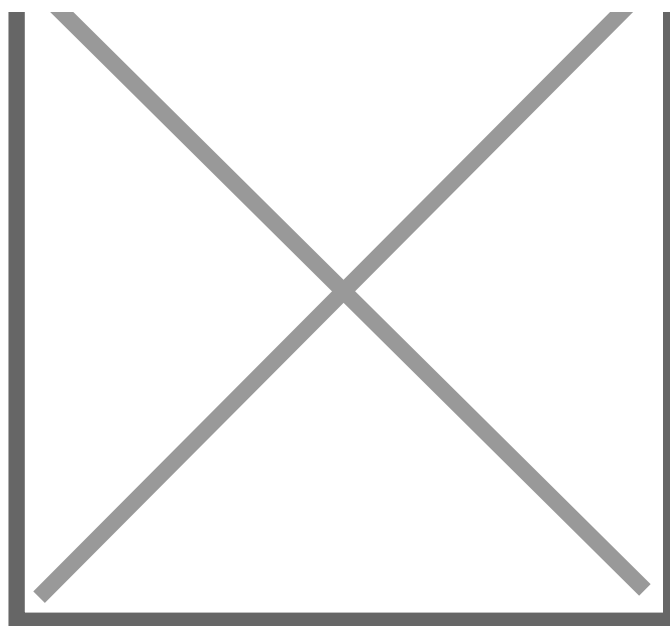

- Shows how much conversation history the model can remember
- Higher limits = better memory of earlier story events
- Ranges from 10,000 (basic) to 131,000+ (premium)

How to Switch Models

- Tap the Settings icon (??) at the top right of your Storyline
- Tap your current LLM model card and tap your choice of LLM
- Browse available models filtered by type (All/Standard/Premium/Free)
- Tap your desired model to switch
- Continue your story with the new model

Quick Tip: Finding Your Current Model

To see which LLM you're currently using, simply check for the "**Current**" label when viewing the model selection screen. Only your active model will display this badge.

? Tip: Check the model description for specific strengths and weaknesses to find the best fit for your playstyle!
